BETTER THAN BYER. The Steambout Squad Also Ceases to Exist Only in Name-More Men to Be Pinced on the River Front-Thirty-five New Roundsmen-Police Voting Bill Opposed.

At a special meeting yesterday the Police souads. Its action will go into effect on Thurswill be transferred to stations adjoining Broad-

day. The larger men of the Broadway squad will be transferred to stations adjoining Broadway and those of the steamboat squad to precinct covering the river front. Chief Conlin looked at yesterday a lot of big policemen who will be detailed to duty on Broadway. Every one was over six feet tall. Some of the disbanded steamboat squad will now seek retirement.

Chief Conlin said, after the Board's meeting, that the Broadway and steamboat squads ceased to exist only in name. He will detail twenty two additional men on Broadway, so there will be a blue coat on every corner from the Battery to Forty-second street. They will do day duty only. More men will also be detailed on the river front. As Capt. Allaire, by the abolishment of the steamboat squad, is left without a command, he will probably be detailed temporarily as Acting Deputy Chief.

The Commissioners in executive session appointed thirty-five acting roundsmen as full roundsmen. These are the new roundsmen:
Henry Towrsme of Old slip, George Robinson of Church street, Francis A. Creamer of Church street, Francis A.

Central Office, John McCauley of Detective Bareau, Jeremiah D. Sullivan of Ohi slip, and John Lake of West Sixty-cighth street.

All the above named were on the eligible list. Roundsman James F. Crowe of the Central Office received the highest percentage in the competitive examination, and stood first on the eligible list.

Acting Roundsmen David D. Hall of Westchester, David Beaule of East Sixty-seventh street, and James F. Poke of Morrisania, failed to pass the examination, and were remanded to patrol duty. Acting Roundsmen Patrick J. J. Dinan of Old slip, and John Foley of East Eighty-eighth street were also remanded to patrol duty. They were accused of communicating with each other during the examination. The Commissioners also remanded Acting Roundsman Daniel Nealis of East 120th street, who was one of the competitors. Chief Examiner Dobbs of the Police Civil Service Board made charges against Nealis of attempting to pass the examination by fraud. Mr. Bobbs informed the Commissioners that Nealis had in his possession on the day of the examination a lot of manuscript information which he intended to use in the examination. As a result Nealis was reduced to patrol duty, and Commissioner Roosevelt ordered charges to be made against him. He will be placed on trial.

Roundsman John B. Tyler of the Elizabeth street station was also reduced in rank. He is the policeman who reported that a robbery had occurred at his home and made faise statements regarding the matter. Charges are pending against him.

regarding the matter. Charges are pending

against him.

Commissioner Andrews, who goes to Albany to-day in behalf of the bill authorizing the Police Board to establish a signal system, was authorized to oppose the bill compelling the Commissioners to give opportunity to policemen to vote on Election day. Mr. Roosevelt said it was a bad bill, as now all the policemen voted who could be spared, and, if it became a law, fraud and violence would result at the polling places. The uniformed members of the force are opposed to the bill giving pensions to police clerks. All the Commissioners but Parker are in favor of it.

NOVA SCOTIA'S GRIEVANCE.

Dragged Into the Confederation, Sho Will Not Celebrate Dominion Day.

Ournec, March 9,-Nova Scotla is so far up in arms against the rest of the Dr.minion that she has declared by an overwhelming vote of her Legislature against the observance of Dominion day as a public and school holiday. In answer to the strictures of the "loyal" press in other parts of Cauada upon this action, Mr. Herneon, a member of the Nova Scotia Legislature, pubishes an open letter containing some very plain

"Confederation in Nova Scotia," he says,

sea."
Chief among the originators of confederation in Nova Scotia is Sir Charles Tupper, the present leader of the Conservative party. There is a steady growth in the anti-confederation feeling down by the sea, and when the first break is made, whether by Mantioba or Quebec, Nova Scotia will be ready to take advantage of the opportunity of seceding. The disloyalty to confederation is matter of comment in ultra Tory newspapers like the Montreal Gazatte.

MR. BURR DOESN'T DECIDE.

He Practically Refers Willia's Civil Service Problem to the Courts.

Corporation Counsel Burr of Brooklyn has rendered a voluminous opinion in relation to the questioned legality of the recent action of City Works Commissioner Willis in constituting eleven new places, with salaries ranging from \$1,800 to \$2,200, and putting them outside the operations of the civil service rules. Mr. Burr

operations of the civil service rules. Mr. Burr does not pronounce positively on the question, and evidently thinks that it will have to be decided by the courts. He says:

"If the conditions of good administration require that positions should one placed on the hon-competitive list, and better results can be thus secured in the character of the public servants obtained and the services rendered, the decision placing them in such a list would be sustained. If, on the other hand, it is clear that such is not the case, if the discretion conferred is not visely exercised, but abused—if the principle above referred to, which should be controlling, is lest sight of, the action of the determining power, be it Lexislature, Governor, or Mayor, will undoubtedly be set aside."

Mr. Willis is confident that the appointments will be sustained. He said:

"I can show that the changes in the positions were made for the benefit of the service and the greater efficiency of the department."

Mr. Edward M. Grout yesterday began the mandamus preceedings on the part of some of the Democrats who were bounced by Mr. Willis to secure their reinstatement.

The other features referred to were Baltimore and Ohio, which scored a net advance of 3 P cent., and General Electric, to which attention has been redirected by the revival of reports of an impending trade alliance of some sort with its principal competitor.

The advance in Baltimore and Ohio resulted from the oversold condition of the stock. At one time a premium of 1 F cent. was obtainable for the use of the stock over night. This fact, together with the comparatively small sales of Baltimore and Ohio, both since and for a long time prior to the appointment of receivers for the company, would seem to indicate that actensively.
